

# TOUAIBI AHMED

Full Stack Developer

Address: Ariana  
Phone: +21699568453  
Email: touaibiahmed67@gmail.com  
LinkedIn: Touaibi Ahmed

## SUMMARY

I am a Full-Stack Developer skilled in designing and optimizing scalable systems. Proficient in various programming languages and database management, I excel at enhancing operational efficiency and performance. Passionate about design, technology and innovation.

## WORK EXPERIENCE

### INTERNSHIPS

**Chosen Ones Clothing Website** **ALFA COMPUTERS & CONSULTING - Jan 2023 - Feb 2023**

- This project is a web application that allows clothing store owner to post ads seeking adopters for their products. The platform features a responsive design, user authentication, ad posting and management, and a seamless user experience, facilitating efficient connections between store owners and customers.
- Project was developed using MERN

**MediPro-Connect** **SW CONSULTING - Jan 2024 - Juin 2024**

- This project aims to develop a comprehensive web solution and mobile application designed to streamline patient appointment scheduling and enhance doctor schedule management efficiently.
- Project was developed using MERN for web application and React Native for mobile application

## PERSONAL PROJECTS

### My Coiffure

MyCoiffure is a mobile application built with React Native and Node.js that streamlines beauty salon bookings. The app features real-time appointment scheduling, service management, and customer profiles.

### Free Choice

An interactive Quiz Game that combines engaging gameplay with 3D graphics. The application features a responsive user interface state management using Zustand, and smooth animations powered by Framer Motion. Implemented advanced features including 3D physics using Cannon.js, sound effects integration, and a sophisticated scoring system.

## EDUCATION

TEK-UP University, Ariana	2024-2027
National Engineering Diploma in Data Science	
Higher Institute of Technologies, Mahdia	2021-2024
License Degree in Computer Technologies	

## ADDITIONAL INFORMATION

- **Technical Skills:**
- **Web Development:**
  - Back-End: NodeJs, NestJs, Springboot
  - Front-End: ReactJs, Angular
- **Mobile Development:** React Native
- **Languages:** Arabic, English, Frensh.
- **Certifications:** Nvidia Getting Started With Deep Learning  
Nvidia Building LLM Applications With Prompt Engineering  
SCRUM FUNDAMENTALS CERTIFICATION
